Although Logiflex offers great matches from laminate to wood, they are not exact due to grain pattern and sheen variation from laminate to wood. They coordinate throughout a floor plan, however we recommend they not be utilized on the same piece of furniture.

Bien que Logiflex offre de bonnes correspondances entre les mélamines et les bois, elles ne sont pas parfaites en raison du grain de bois et de la variation de la mélamine au bois. Ils se coordonnent dans un aménagement de bureau, mais nous vous recommandons de ne pas les utiliser sur le même meuble.
