# WORD FROM *The President*

## **Logiflex: Laying the foundation for your company's success**

Dear friends,

Logiflex has been making life at work better for 25 years, and what we do matters more than ever in 2021. Good office spaces are the backbone of a productive business. With advances in technology, new generations entering the workforce and the increasingly important role of social media, the workspace is no longer a workplace. Instead of a strictly brick and mortar set up, the workspace has been reimagined as a space that creates the conditions for creativity, innovation, collaboration and productivity.

Several studies show that office space planning has a tangible impact on employees and where they choose to work. Businesses that have shifted their focus to quality of life at work by giving their employees more freedom have a stronger employer brand and a more committed workforce. The office is therefore a tool in your company's arsenal as it strives to maintain a competitive edge in recruiting and provide a collaborative space to inspire great work.

Businesses have also realized that workspaces are critical drivers of performance, and a well designed space can improve efficiency. Individually assigned desks are being swapped out for connected, nomadic and flexible workspaces. Letting employees choose where they work enhances their productivity and saves the company money, and employees enjoy a greater sense of autonomy and responsibility.

Transform your office space, and your organization can reap the benefits of happier workers and higher productivity!

A handwritten signature in black ink, appearing to read 'Yan Sinclair'.

Yan Sinclair  
President Logiflex

# 24 Laminates

You can choose the dimensions, colors and configurations based on your company's style, budget and needs.

## October 2021:

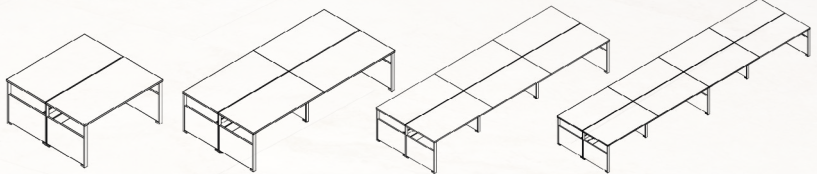

### NEW COLORS & FINISHES NOW AVAILABLE!

# New Level Benching *Recessed Shared Leg*

Rediscover the Level legs you love, now adapted for shared benching stations! The redesigned central leg maximizes space so that you can slide your shared storage even further under the surface of the table. Benching stations can accommodate 2, 3, 4, 6 or 8 people and are perfect for collaborative work and small spaces.

# ELEVATION PLUS

Elevation Plus is the ergonomic solution for flexible and comfortable work. It's fast, powerful and silent, with a synchronized multi motor system and collision detection. Each surface is equipped with an electrical control panel and can be raised or lowered between seated and standing positions in a matter of seconds. Elevation Plus allows the user to assume the posture they prefer, depending on the task at hand, their energy level or their mood.

# DID YOU KNOW?

The Elevation BAS is now available in the Quickship program!

# Volt

## COLLABORATION SPACES

With wire management, outlets and wood inserts, the Volt collection allows you to keep your work surface clear and uncluttered. The Milan collection of chairs and armchairs pairs beautifully with Volt's minimalist look.

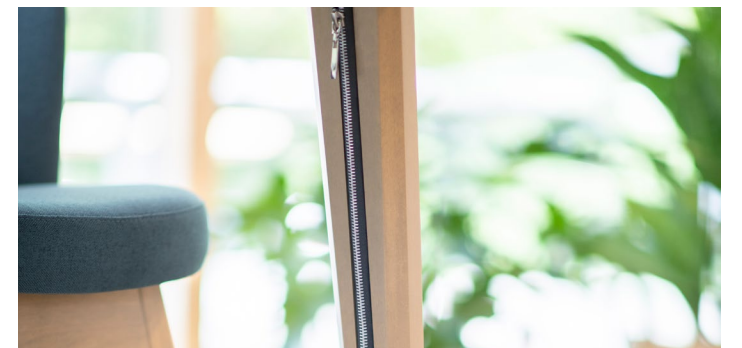

*voit*

## CONFERENCE TABLES

Based on the selected dimensions, each table comes with its own standard for centre leg clearances, the positioning of wood inserts and the number of optional outlets to ensure optimal ergonomics. Dimensions range up to 144". All Logiflex finishes are also offered as surface finishes, including our high-end Chalk and Carbon Monochrom finishes.

*Volt*

## PRIVATE OFFICES

The Volt collection offers sophisticated work stations and collaboration tables with electrical options discreetly integrated into the wooden apron for a clear, uncluttered work surface. The modesty panel is available in 12 wood stains and 3 felt colors that match perfectly with the different laminates offered, adding a touch of personality to your furnishings.

# Cake

## COMMERCIAL QUALITY IN THE COMFORT OF YOUR OWN HOME

Need an elegant, minimalist desk designed for your home? Meet Cake, Logiflex's collection of comfortable, practical desks with clean modern lines. To make your home office functional and ergonomic, personalize it with efficient accessories that will improve your productivity and keep you connected.

# Customization

## FLEXIBILITY IN THE CREATION OF YOUR FURNITURE

From the very start, we decided to target the niche of customization and innovation. In our never-ending search for ways to simplify the creation of furniture, we developed our own custom software for managing everything from drawing to production.

The unique culture we've created, paired with the flexibility of our production line, enable you to combine any of the furniture options as you see fit, with no additional lead time. You can choose the dimensions, colors, accessories and configurations based on your company's style, budget and needs.

**Client:** Econoler, Quebec City  
**Architect:** BMD Architectes  
**Office Furniture Dealer:** Mobilier de Bureau MBH

Econoler wanted to fit out its offices in an original and aesthetic space. This client chose the Level and Millenium collections in order to design an innovative work environment at a very competitive price. This client therefore designed 40 workstations, integrated in an open-concept environment that lets in natural light. This client appreciated the privacy walls which have a dual function, that of creating intimate spaces and storing mobile pedestals. Indeed, these pedestals and lockers have proven to be a simple and effective solution to guarantee safety and storage in the work areas of their employees. In addition, incorporating plants into offices is more than a trend or a business opportunity, several studies show that the benefits go far beyond aesthetics. The result: an open, bright workspace that promotes engagement, inspires innovation and stimulates productivity.

Logiflex's contributions to this new, modern space didn't stop here. The company also installed a kitchenette, a reception desk, lockers, tables and counters in the lunch area.

Coming Soon: 2022

# XTENSION

*Panel based workstation*

**Let's create bright, open workspaces that promote engagement, inspire innovation and stimulate productivity**

Xtension is a panel-based workstation collection that offers a breadth variety of space divisions, work surfaces and private storage. Designed to offer personal space and privacy in an open-concept environment, the layouts are highly customizable and include different levels of visual privacy or openness, according to your needs.

With features like its frameless panels, concealed cable management and integration of accessories like fabric tackboard or planter, Xtension offers benefits that go far beyond aesthetics.

# Logilife

Health care professionals and managers of hospitals and long-term care facilities were reunited around a common objective: to create aesthetically pleasing bedroom furniture that would meet the sanitary needs of the health care sector while creating comfortable and inviting living environments. The Logilife series of bedroom furniture brings to mind the warmth and coziness of home to foster residents' happiness and comfort.

Logiflex offers safe workstation solutions for health care staff. We've designed new workstations with social distancing in mind, to allow you to safely accommodate patients in mass vaccination centers, waiting rooms and triage and consulting areas. These layouts use products that meet the health and safety requirements of the health care sector.

For both pop up vaccination clinics and temporary vaccination centers in health care institutions, Logiflex ensures that nursing staff have the work setting they need for the important work of vaccinating the public safely.

Logilife's seats come with a vinyl moisture barrier and aerators that cover, and protect the underside of the seat. This easy to clean surface protects the chair from liquids and allows air circulation to the cushion. To prolong Logilife's seats longevity, an **optional clearance space** between the backrest and seat cushion can be specified to facilitate cleaning and maintenance. Whisper is the vinyl of choice for health care because of its antimicrobial properties. Recommended in high-traffic and commercial locations, Whisper is a vinyl that is proven and satisfies its users.
