Our social responsibility

At Logiflex, we have chosen to be a responsible North American manufacturer by implementing initiatives for sustainable development. As much as possible, we source local materials and partner with suppliers who prioritize clean manufacturing processes. We also consolidate goods during transport to reduce our fuel consumption and we continually make changes that help reduce our waste production.

The company is ISO 9001 certified.

You can consult our eco-responsible approach as well as all our certifications in the [Certifications](#) section of our website. Find out how our products can help you obtain LEED credits and the Logiflex products that are Indoor Advantage Gold certified.

Conditions of Sale

Prices

The amounts listed in this document are suggested retail prices and may be changed without notice. Applicable taxes are not included. If you have an open and active account with Logiflex, merchandise will be invoiced at the prices prevailing at the time of shipment. A deposit may be requested if the opening of your account has not been completed or if your account has become inactive.

Terms of Payment

Net 30 days F.O.B. Sherbrooke, Quebec. The invoice will be assigned the shipping date and is payable 30 days from that date. Logiflex remains the owner of the merchandise until the invoice is paid in full.

Customized Products (Special Items)

Price requests for customized products or special items can be submitted via the "[Private Space](#)" section of our website, at www.logiflex.ca. Our quotations department will study your request and send you a quotation and a technical drawing for approval as soon as possible. Modifications to quotations or technical drawings can be requested the same way. The approved quotation(s) and technical drawing(s) can then be attached to your purchase order.

Orders

An official purchase order must be issued for all purchases. Your purchase order must contain the following information:

- Your company letterhead
- Your reference number
- The delivery address (with contact name, email and phone number)
- The complete product codes
- Furniture colour(s)
- Quantities
- Descriptions
- Retail prices and net prices
- Project registration number (if applicable), and your approved quotation and technical drawing (for special items).

Please note that a quotation cannot serve as a purchase order.

Returns

All returns must first be approved by Logiflex. If the return is accepted, a Logiflex customer service representative will send you an official return authorization form in order to facilitate procedures between you, the carrier, and the Logiflex merchandise reception clerk. Additional costs for shipping or other expenses may be applied following any merchandise returns.

Modifications and/or Cancellations

You have 48 hours from the time we acknowledge receipt of your order to make any requests for corrections or modifications. You may cancel your order during this same 48-hour period. If you would like to modify or cancel your order after this 48-hour verification period, please check with a Logiflex customer service representative. Orders cannot be changed or cancelled if production has already begun or if Logiflex has already received the raw materials.

Liability

Logiflex's liability ends once the carrier has delivered all items in good condition. A delivery receipt signed by the customer acknowledges that the shipment is complete and has been received in good condition.

Claims

Logiflex recommends inspecting the shipment before signing the carrier's delivery receipt. You must notify Logiflex of any incomplete shipments or damaged furniture within 30 days after delivery. Requests to replace damaged products can be made via the "[Private Space](#)" section of our website, at www.logiflex.ca. Our after-sales service department will examine your request and help you correct the situation.

Changes

Logiflex reserves the right to make changes to the materials, accessories, components, specifications and designs, and to discontinue collections and/or models, at any time and without prior notice.

Storage and/or Shipping Fees

According to the terms Logiflex set forth in the transport policy. The transport policy can be consulted online in the Private Space.

Items Delivered Disassembled

Some items are delivered disassembled, such as empty desks, empty returns, bridges, arched tables, D, P or Q tables, lateral tables, end tables, hook tables, corner tables and extended-corner tables.

Warranty

Logiflex guarantees to the original purchaser that Logiflex products are free from defects in design, materials and workmanship for the product's lifetime, with certain exceptions.

You may consult the full warranty on the website: [Logiflex Warranty](#)

Introduction

Manufacturing Standards

Product Dimensions

For display purposes, the furniture dimensions represented in the price tables on each product page are rounded to the nearest whole number.

Furniture Construction

- Desktops are 1-5/8" thick laminate;
- Legs are 1" thick laminate;
- Fronts, backs and modesties are 5/8" thick laminate.

Handles

Handles are included for all the Manhattan furniture items with fronts (Exception of hutches, for which handles are sold as options). For the other series, handles are included for the majority of furniture items with fronts (Exception of some pedestals and hutches, for which handles are sold as options). The standard handle style, when included, is HJAB (black). Please refer to the Logiflex handle selection in the [Accessories](#) section at the end of this price list.

Grommets

Grommets are included for some items such as D,P and REG tables, lateral, end, corner, extended-corner and arc tables, and returns. When grommets are included, the standard style is the ELPF grommet.

Locks

LKBL (black) locks are included for some items, such as pedestals, lateral file drawers, cabinets, wardrobes, combination units and credenzas. To specify a different type of lock, please refer to the [Accessories](#) section at the end of this price list to see the different models offered by Logiflex.

Pedestals

All drawers are made of black Medium density fiberboard (MDF) with an average thickness of 7/16". Type D, E and F pedestals include a black polyvinyl chloride (PVC) extrusion for easy finger grip operation (no handle).

Drawer Fronts

A PVC strip 1.5 mm thick is systematically applied along all drawer front edges.

Wood Grain

The wood grain is always vertical on fronts and furniture doors. Surfaces more than 96" are in two parts. Logiflex cannot guarantee that the wood grain will match up on the different parts of a same surface.

Hutches

All hutches have 1-1/8" wire space at the lower back and a round grommet at the back of the unit for light fixture wires.

Finishes

You must specify the desired finish(es) for each item of furniture ordered. Please make your selection(s) from the Logiflex chart.

Fabric

You must specify the fabric when the item so requires. Please make your selection(s) from the Logiflex chart.

Levelers

All furniture items (except bridges) sit on 1" in diameter, white nylon levelers, allowing for up to 1-1/4" height adjustment. The standard finished height for work surfaces is 29".

Manufacturing Standards

- Horizontal wood grain on back panel.
- Task light concealer.
- Flexible grommet on back.

Number of Doors:
30" - 42": 2 doors, 48" - 54": 3 doors, 60" - 72": 4 doors, 84": 5 doors.

Tackboards: A fabric (TB) or cork (LI) tackboard can be added.

Leg Base: If the choice of base is not specified, the standard is 2 full legs (LR). For 1/2 leg on left or right (HR or LH) add \$5 retail. For two half legs (HH), add \$62 retail. **Warning:** hutches with half legs (HH) must be secured to the wall or adjacent furniture so that they do not tip forward. Logiflex is not responsible for any accidents caused by incorrectly installed hutches.

Locks: Offered as option. Black (LKBL) or satin nickel (LKSN). Match to handle color.

Dividers: Offered as option. Pre-drilled holes for dividers (DVD), set of 3 wire dividers included.

Handles: To add handles, please choose from the Logiflex list. Add \$5 retail each.

Options

- Tackboard:** LI, TB
- Lock:** LKBL, LKSN, SS
- Pre-drilled Holes with 3 Dividers:** DVD, SS

Appendix I: Calculation / Use of Electrical Components

An Introduction to Calculation and Use of Electrical Components

Most people are uncomfortable with anything related to electricity. This step-by-step guide is intended for people who are not familiar with electrical installations but who have to specify what system they need when ordering furniture. In this guide, you will learn how to choose and specify the electrical components required for your projects. The list that follows illustrates and identifies each product and describes its applications.

The electrical components are all recognized by the Underwriters Laboratory (UL) as office furniture accessories and are manufactured according to Canadian Standards Association (CSA) and UL electrical standards.

Note: All electrical connections must be performed by a certified electrician.

By following these 3 simple steps, you can easily determine the number of circuits required to ensure safe use of your electrical system.

1. Determining the Number of Amperes Required
2. Calculating the Total Amperes
3. Determining How Many Circuits You Need

STEP 1: Determining the Number of Amperes Required

What is Amperage

An Ampere (Amp or A) is a unit for measuring the rate at which electric current flows. All electrical equipment has an amperage rate. By following these few simple steps, you can easily determine the number of circuits required to ensure safe use of your electrical equipment.

Determine the Number of Amperes Required

On your computer or other electric devices (ie: monitor, central processing unit, printer) find the plate that provides the technical specifications as follows:

Input: 120V - 1.8A.

If you cannot locate this information on the machine, you will probably find it in the user manual.

Here are a few examples of how many Amps some equipment may consume. Please note that these are examples and the number of amperes may vary from one machine to another.

Electrical System Capacity

Our electrical system is designed for circuits of 20 amps each. This includes electrical components such as computers, printers, laptops, monitors, server or other devices.

20A

A single Duplex has a maximum capacity of 20 A

Each power block can hold 2 Duplex

Each power block can hold 4 Duplex

If the duplexes are connected to the same circuit, the capacity is divided between them. For example, 3 duplexes connected to the same circuit have a total capacity of 20A.

Introduction

Appendix I: Calculation / Use of Electrical Components

STEP 2: Calculating the Total Amperes

Add the Amperes

Add the number of amps for each machine. In our example, there are 4 CPUs at 2.5A per computer, 4 monitors at 0.5A and one printer at 9A.

$$2.5A + .5A + 2.5A + .5A + 2.5A + .5A + 2.5A + .5A + 9A = 21A$$

The total number of amperes used in this example equals to 21A.

Divide by 16

Most machines and computers used in offices or schools are used continuously for many hours at a time. In this type of situation, national electrical codes usually limit circuits at 80% of their capacity of continuous use. Our electrical system is designed for circuits of 20 amps each. So 80% of 20A is 16 Amps. You must therefore divide the total number of amperes calculated by 16.

STEP 3: Determining How Many Circuits You Need

In most cases, this number will contain decimals. Round up to the next whole number, and this will be the number of circuits required for your equipment to run safely. If the number obtained is higher than 4 (the maximum number of circuits for a system), you must reduce the total amperage or add another electrical system. Continuing with our example, the 1.3A is rounded up to 2A.

Here is one possible configuration. Using 5 power blocks joined together with junction cables, only 2 circuits are being used. The 4 workstations would be on the first circuit for a total of 16 amps. The printer would be on the second circuit.

 **CHICAGO CODE**

There is a specific norm about Chicago electrical components. Some of our products are approved, but not all of them.

 If you see this logo in [Accessories](#), this means the product is **NOT** approved in Chicago. More info [here](#).

Appendix I: Calculation / Use of Electrical Components

8 Wire, 4 Circuit (3+1) Power Block

- Duplex are interchangeable permitting any required circuit combination;
- Blocks for single or double sided applications;
- Complies with National Electric Code;
- UL Listed/Recognized.

Starter Cable with Hardwire

- 4 circuit starter cable with hardwire at one end;
- 4 circuits rated for 20 AMP each;
- Available in lengths from 12" to 180";
- Whip end to be connected to building power by an electrician.

Starter Cable with Plug

- 1 circuit starter cable with 20A electrical plug;
- Circuit rated for 20 AMP;
- Available in lengths from 36" to 180".

Junction Cable

- 4 circuit cord;
- All circuits rated for 20 AMP;
- Available in lengths from 12" to 216".

Hutches and Wall Storage

Adjustable Shelf Hutches

HAS

Leg Bases

Manufacturing Standards

- Horizontal wood grain on back panel;
- Vertical middle panel on hutches 54" wide or more.
- 1-1/8" wiring space at lower back;

Tackboards: A fabric (TB) tackboard can be added.

Leg Base: If the choice of base is not specified, the standard is 2 full legs (LR). For 1/2 leg on left or right (HR or LH) add \$43 retail. For two half legs (HH), add \$86 retail. **Warning:** hutches with half legs (HH) must be secured to the wall or adjacent furniture so that they do not tip forward. Logiflex is not responsible for any accidents caused by incorrectly installed hutches.

Fabric Tackboards for Hutches

TB

Manufacturing Standards

Standard Fabric: Please choose from the Logiflex color chart.

Chair Fabric: Please submit a quotation request providing the following information: manufacturer's name, pattern name/number and color name/number. Price available upon request.

COM Fabric: (Provided by the customer). COM fabrics must be sent directly to your Customer Service Representative, **Prepaid**. It is important to indicate the reference number of your purchase order on the package containing your fabric.

Tackboards with COM Fabric:
 30" - 42" tackboards = 1.5 yards
 48" - 60" tackboards = 2 yards
 66" - 78" tackboards = 2.5 yards
 84" - 96" tackboards = 3 yards

Tackboards for Existing Hutches:
 If ordering a tackboard for an existing hutch, please specify the code of the existing hutch. Logiflex can then make the tackboard to the exact dimensions for easy installation of the product.
